## The Earth Speaks: An Acclimatization Journal

A collection of images and impressions captured by those who have listened to the earth with their hearts --- John Muir, Walt Whitman, Annie Dillard, John Burroughs, Rachel Carson, Aldo Leopold, Henry David Thoreau, and more...

The Earth Speaks can be read by individuals in moments of solitude, shared among friends around a trailside campfire, and used by leaders to help their learners develop a love for life and the systems of the earth that sustain it.

Brought to life by the beautiful block prints of Gwen Frostic, this book contains the writings of naturalists and natives, poets and philosophers, plus ordinary people who were able to capture in words some of the magic and meaning of the earth's marvels.
