Lehne's Pharmacology for Nursing Care Jacqueline Burchum, Laura Rosenthal

A favorite among nursing students, **Pharmacology for Nursing Care, 8th Edition**, features a uniquely engaging writing style, clear explanations, and unmatched clinical precision and currency to help you gain a solid understanding of key drugs and their implications -- as opposed to just memorization of certain facts. Compelling features such as a drug prototype approach, use of large and small print to distinguish need-to-know versus nice-to-know content, and a focus on major nursing implications save you study time by directing your attention on the most important, need-to-know information. The new edition also features an abundance of content updates to keep you ahead of the curve in school and in professional practice.

- **UNIQUE! Engaging writing style** with clear explanations makes content easy to grasp and even enjoyable to learn.
- **A drug prototype approach** uses one drug within each drug family to characterize all members of its group to help you learn about related drugs currently on the market and drugs that will be released once you begin practice.
- **UNIQUE! Special Interest Topic boxes** address timely issues in pharmacology and connect pharmacology content with current trends.
- **Large print/small print design** distinguishes essential "need-to-know" information from "nice-to-know" information.
- **Limited discussion of adverse effects and drug interactions** keeps your limited study time focused on only the most clinically important information.
- **Reliance on up-to-date evidence-based clinical guidelines** ensures that therapeutic uses are clinically relevant.
- **Integrated and summarized nursing content** demonstrates the vital interplay between drug therapy and nursing care.
- **Coverage of dietary supplements and herbal interactions** equips you to alert patients and caregivers to the potential dangers of certain dietary supplements, including interactions with prescribed and over-the-counter drugs and herbal therapies.
- **Additional learning features** provide a touchstone for study and review as you complete reading assignments and build a foundation of pharmacologic knowledge.
- **Updated drug content and related nursing content** reflect the very latest FDA drug approvals, withdrawals, and evidence-based therapeutic uses.
- **Expanded and updated content on medication safety** prepares you to pass the NCLEX Examination and practice safe medication administration in the clinical setting.
- **Expanded coverage of pharmacogenomics** introduces you to the many different genetic factors that influence drug therapy.
- **New information on electronic prescribing** primes you for nursing practice in the 21st century, as electronic prescribing systems become more common in the clinical setting.
- **Updated coverage of evidence-based clinical treatment guidelines**, particularly those for cholesterol and diabetes management, promotes evidence-based practice in nursing pharmacology.
- **New chapter (Chapter 39) on nicotine and tobacco** abuse highlights our growing understanding of the unique addictive properties of nicotine and the nursing considerations for helping patients improve their health through smoking cessation.
- **Canadian drug names** are now included and highlighted with a maple leaf icon to familiarize U.S readers

with other trade names they may see and to make the book more useful for Canadian students.

From reader reviews:

Lenore Ryan:

The book Lehne's Pharmacology for Nursing Care can give more knowledge and information about everything you want. Exactly why must we leave a very important thing like a book Lehne's Pharmacology for Nursing Care? A few of you have a different opinion about reserve. But one aim which book can give many facts for us. It is absolutely right. Right now, try to closer with your book. Knowledge or details that you take for that, you may give for each other; you could share all of these. Book Lehne's Pharmacology for Nursing Care has simple shape nevertheless, you know: it has great and big function for you. You can search the enormous world by open up and read a reserve. So it is very wonderful.

Derek Winter:

As people who live in often the modest era should be update about what going on or facts even knowledge to make these individuals keep up with the era which can be always change and move forward. Some of you maybe will certainly update themselves by reading through books. It is a good choice for you but the problems coming to anyone is you don't know what kind you should start with. This Lehne's Pharmacology for Nursing Care is our recommendation so you keep up with the world. Why, as this book serves what you want and want in this era.

Thelma Brady:

This Lehne's Pharmacology for Nursing Care is great reserve for you because the content which is full of information for you who always deal with world and possess to make decision every minute. This particular book reveal it details accurately using great coordinate word or we can state no rambling sentences inside it. So if you are read that hurriedly you can have whole facts in it. Doesn't mean it only offers you straight forward sentences but tough core information with lovely delivering sentences. Having Lehne's Pharmacology for Nursing Care in your hand like finding the world in your arm, facts in it is not ridiculous a single. We can say that no e-book that offer you world inside ten or fifteen second right but this guide already do that. So , this is good reading book. Hello Mr. and Mrs. occupied do you still doubt this?

Betty Richey:

Reading a book to become new life style in this year; every people loves to read a book. When you examine a book you can get a wide range of benefit. When you read guides, you can improve your knowledge, due to the fact book has a lot of information into it. The information that you will get depend on what sorts of book that you have read. If you want to get information about your research, you can read education books, but if you act like you want to entertain yourself you can read a fiction books, these kinds of us novel, comics, in addition to soon. The Lehne's Pharmacology for Nursing Care offer you a new experience in studying a book.
