Ntignano was a populated world with a perfect sun -- until the right technology fell into the wrong hands. Now the sun is failing quickly, and the *Starship Enterprise*TM has just one chance to evacuate the peeing refugees. Captain Jean-Luc Picard must succeed in delicate negotiations with the only people who can help them: a prickly neighboring species known as the Tsorans.

To assist in that effort, Commander Will Riker was assigned a very different diplomatic task. As a polite formality and show of good faith, he accompanied a young Tsoran prince to an exclusive hunting preserve. There, technology-damping Pelds and some of the galaxy's deadliest predators were supposed to test the untried noble's ability in the *kaphoora* -- the hunt. But the shuttlecraft didn't land on Fandre; it crashed. Now, cut off from Tsora and the *Enterprise*, the survivors of the disaster face the ultimate struggle for survival. Without the aid of tricorders or phasers, Riker, his royal charge, and their would-be rescuers must fight for their lives with the only weapons they can muster -- spears and *bat'leth*, tooth and claw.
