Development Geography (Routledge Contemporary Human Geography) Rupert Hodder

Development Geography is an informative and vibrant introductory level text, with a wealth of contrasting case-studies and illustrations. Written to stimulate critical thought and discussion about development, it does not assume any clear-cut distinction between 'developed' and 'developing' parts of the world. Case-studies highlight the problems and possible solutions at local, national and international scales. These include:

- * food production in Senegal
- * Disney in China
- * Hurricane Mitch in Honduras
- * corruption in Bulgaria
- * further studies from Russia, Bangladesh and Vietnam.

Development Geography is the fifth book to be published in the popular modular text series *Routledge Contemporary Human Geography*.
