The Cambridge History of Latin America is a large scale, collaborative, multi-volume history of Latin America during the five centuries from the first contacts between Europeans and the native peoples of the Americas in the late fifteenth and early sixteenth centuries to the present. Latin America: Economy and Society since 1930 brings together chapters from Parts 1 and 2 of Volume VI of The Cambridge History to provide a complete survey of the Latin American economies since 1930. This, it is hoped, will be useful for both teachers and students of Latin American history and of contemporary Latin America. Each chapter is accompanied by a bibliographical essay.
