## **Water Reclamation Guidance: Design and Construction of Systems Using Grey Water (Technical Note)** Reginald Brown, A. Palmer

Aimed at manufacturers, installers and end users of water reclamation systems using grey water, this title highlights specific issues of concern affecting the design, construction and installation of packaged water reclamation systems using grey water. It takes account of information produced during the Buildings That Save Water (BTSW) project and the WRAS guidance concerning the use of reclaimed water for toilet flushing, irrigation and vehicle washing purposes in the UK. Sections include classification of systems, collection and distribution systems, safety issues, installation, commissioning, decommissioning, operating and maintenance, and environmental impacts.
