Asphalt Paving Technology 2011 Editor: Eugene L. Skok

This volume, in both print and electronic (CD-ROM) form, comprises original and never-before published research on asphalt paving, including sustainable mix formulations (with recycled asphalt and shingle content), binder performance, data on cracking and wear, as well as novel testing protocols emerging from the "Guide for the Mechanistic and Empirical Design of New and Rehabilitated Pavement" (MEPDG). The technical information in the book was presented at the 2011 annual meeting of the Association for Asphalt Paving Technologists.

The CD-ROM displays figures and illustrations in articles in full color along with a title screen and main menu screen. Each user can link to all papers from the Table of Contents and Author Index and also link to papers and front matter by using the global bookmarks which allow navigation of the entire CD-ROM from every article. Search features on the CD-ROM can be by full text including all key words, article title, author name, and session title. The CD-ROM has Autorun feature for Windows 2000 with Service Pack 4 or higher products along with the program for Adobe Acrobat Reader with Search 9.0. One year of technical support is included with your purchase of this product.
