Global Warming: The Threat of Earth's Changing Climate Laurence Pringle

Global warming is perhaps the most prominent and urgent environmental issue of the past decade, continuing to make front-page headlines. Award-winning science and nature writer Laurence Pringle describes the cause of this worldwide trend, exploring its past, present, and potential future damage to our climate, ecology, and economy. He also offers solutions that may help avert a global disaster. With over 30 color photographs and an extensive glossary, here is an authoritative look at a timely topic that all children and adults must face—and soon.
